01 / BETWEEN WORLDS

Creative technologist and CTO at TerraLux working across web platforms, digital twins, augmented reality, and immersive storytelling. Combines React, TypeScript, and Unity development with on-site capture, interface design, and a decade of professional web development. Builds tools and experiences that connect people, places, and ideas.

02 / CURRENT WORK

TerraLux / The Futurist Network

Chief Technology Officer / Aug 2022 - Present

Build React, TypeScript, and Supabase platforms; develop Unity-based iOS AR; create digital twins and architectural visualizations. Connect technical delivery with public demonstrations, fundraising presentations, and day-to-day technology operations.

03 / SELECTED PROJECTS

FUTURE LENS.

Scan. Remix. Publish. Digital twins, tours, and AR.

FUTURE LAB.

Gather. Innovate. Build. People, place, and technology.

TREE XR / BOXBOI.

Wearable AR, storytelling, and imagined worlds.

BUILT OVER TIME.

From the web to the world.

04 / EXPERIENCE

BehindTheChair.com

Web Development | WordPress & Next.js

Apr 2023 - Aug 2024

Maintained WordPress, Shopify, and learning platforms. Developed headless WordPress with Next.js 13, Vercel, and WP Engine; integrated APIs and plugins.

The Walker Group

Front End Web Developer

Jul 2020 - Apr 2023

Built WordPress themes, plugins, and API integrations. Managed backups, updates, quality assurance, and Git workflows with cross-functional teams.

GraVoc Inc.

Front End Web Developer

Oct 2019 - Jul 2020

Developed WordPress themes and plugins; maintained sites across frameworks and deployed Firebase apps. Built an internal development wiki and coordinated through GitHub.

Miranda Creative

Front End Web Developer

Dec 2017 - Feb 2019

Translated Sketch designs into WordPress themes with Genesis and ACF. Maintained client sites, supported proposals, and improved accessibility for Connecticut libraries.

Systematic Automation

Front End Web Developer

Jan 2016 - Nov 2017

Migrated static sites to WordPress. Built custom themes, plugins, and search-optimized sales pages, plus a machine directory with video and interactive presentations.
